 Diagnostic, UK)  
 Coining of America (US)  
 Scott Dixon (US)

**Testimonial**

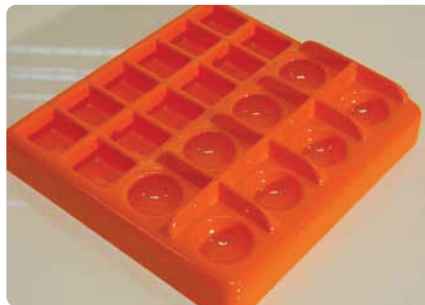

*Here at Lush Fresh Handmade Cosmetics we produce many molded items that are poured into custom made molds. The forming machine supplied to us by Formech has met our demand perfectly. My service rep is always available when service is needed and parts are always received in a very timely matter, although in 6 years the machine has only broke down once and it was up and running smooth in no time. I will continue to use Formech for all our in house mold production as the service has been excellent every time.*
