Faced both sides with Stadurlon compact-sheets

With Stadur you make an external impact. Because apart from the standard compound elements, we offer our customers high-quality support material for the fields of digital direct printing, screen printing and laminations as well as applications for advertising signs and display construction.

With the light foam panel Stadur Viscom Sign, Stadur has developed an innovative product with a high surface strength, which will revolutionise the advertising market. The characteristics are: high rigidity, yet very low weight.

Standard sizes*

Thickness: 8mm / 10 mm / 15 mm / 19 mm
Board sizes: 3000 mm x 1500 mm (K + SL)
3000 mm x 2000 mm (K + SL)
3050 mm x 1530 mm (SF)
3050 mm x 2030 mm (SF)

* protective foil on both sides

The panel is suitable for both indoor and outdoor use. You can choose from 3 top layers in combination with Stadur Viscom Sign. All three are characterised by a high resistance to scratching and high strength quality. Thanks to these special surfaces, the light foam panels are excellently suitable for all known printing methods.

Stadur Viscom Sign is available in a variety of dimensions and thicknesses.
